

Amount of plates ***											Where appropriate the following European standards and regulations were used during design and construction:																		
Volume Side 1 (l) *											PED 2014/68/EU (Pressure Equipment Directive)																		
Volume Side 2 (l) *											EN 1148 (Water to water heat exchangers for district heating)																		
Max working pressure (bar)											EN 10272 (Stainless steel bars used for pressure purposes)																		
Min / Max temperature (°C)											EN 10028-7 (Stainless steel flat products used for pressure purposes)																		
PED Class Group 1 (Category) **											Please ask your sales partner if you require other standards or certification to be applied.																		
PED Class Group 2 (Category) **											©2025 Errors, Omissions and Technical Alterations excepted																		
Plate packet depth L(mm) *											Connections : 1.4301 (304) / Plates : 1.4404 (316L)																		
Net Weight Empty (kg)											UNEX Heatexchanger Engineering GmbH																		
Heat Transfer Area (m²)											Lobäckerstraße 60d																		
											A-7000 Eisenstadt Austria
